

SINCE TAKING PERUNA

I can say my bowels are much more regular. My heart is stronger. My appetite is much better. My throat is much better.

Mrs. William H. Hincliffe, 20 Myrtle St., Beverly, Mass., writes: "I have taken four bottles of Peruna, and I can say that it has done me a great deal of good for catarrh of the head and throat. I recommend Peruna to all sufferers with catarrh. I do not think I ever felt much better. I am really surprised at the work I can do. I do not think too much praise can be said for Peruna."

Those who object to fluid medicines can now procure Peruna Tablets.

SOCIETY

ALINE THOMPSON

LOCAL society and college folk will flock to the Willamette University campus Friday to attend the annual May day festivities. A feature of the affair will be the alfresco breakfast given by the young women's christian association of the university from six thirty to nine o'clock. Judge Orders Verdict Against S. P. Company

The United States vs. the Southern Pacific railroads was the title of a case in the federal court Monday in Portland, before Judge Bean, that is of local interest from the fact that the government alleged the railroad had worked an employe more than the lawful hours. The government alleged that the railroad had worked A. A. Mickel 15 1/2 hours consecutively, while acting as agent at Albany, April 27, 1915. In the case it developed that Mr. Mickel had worked eight hours as agent, and that on account of a telegraph operator being let out, he was then put on the telegraphic work for seven and a half hours. According to the law, nine hours is the lawful time for an operator and 13 hours in an emergency. As the evidence showed that Mr. Mickel had been on duty 15 1/2 hours, Judge Bean took the case out of the hands of the jury and ordered a directed verdict against the railroad.

High School Class Gets Striking Fever Hood River, Or., May 3.—Because the high school faculty and board of directors refused to let Leonard Howard, who was bound over to the grand jury on a charge of stealing an automobile, graduate with the class this month, the senior class of thirty five members walked out at the high school at 9:30 today and refused to return until Howard is restored to class graduation privileges.

The entire high school student body now threatens to walk out and support the action of the seniors. At the United Evangelical church on Cottage street, R. H. Reed, an experienced scout master, will speak on the boy scout proposition next Friday evening, at 8 o'clock. Those who have been prejudiced against the boy scout movement will receive some valuable ideas as to what the movement means and what it will do for the boy. It has been estimated that 50 per cent of the children who enter Sunday school as children are not attending when they have attained the age of 14 years. In his lecture, Mr. Reed will propose a remedy and also take up the subject of who is your boy's chum, and why. He is an experienced scout master and his former lectures here have been highly commended.

RECOVERY OF NEW JERSEY WOMAN

Due To Lydia E. Pinkham's Vegetable Compound.

Bridgeton, N.J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and felt a change for the better after the second day. I took it until I was in a good healthy condition. I recommend the Pinkham remedies to all women as I have used them with good results."—Mrs. MILFORD T. CUMMINGS, 24 New Street, Bridgeton, N. J.

Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for displacements, inflammation, ulceration, backache, painful periods, nervousness and kindred ailments.

WILLAMETTE NOTES

Dr. John Rogers of New York addressed the students this morning on "Mouth Health". He stated that pyorrhea, a disease of the gums of the teeth caused by inflammation, was the cause of 60 per cent of the human diseases. The teeth are the most susceptible to catering germs of any part of the body and consequently should be well cared for. The germs which affect the gums of the teeth are very prolific and the doctor, in 24 hours, two germs will have so multiplied that their progeny will number two hundred trillion and some odd millions. James Ewing a popular freshman has been forced to leave his studies at Willamette on account of the serious illness of his father at Pendleton, Or. Ewing won first place in the recent declamatory contest, giving the dramatic reading "Mandy". He stated before leaving that he was sorry to leave old Willamette, but would be back again next fall. He was a member of the Websterian society, and was famous for his funny stories, of which he seemed to have an endless supply. Of interest to every student is the coming lecture by Prof. J. T. Matthews on the little known of mathematical subject "The Fourth Dimension."

Prof. Matthews is well qualified to speak on this subject, since he has been teaching mathematics in Willamette for many years. The lecture will be given in Waller chapel next Monday evening May 8. It is one of the lectures on the faculty lecture course and will be free to the public. The following calendar of the May

Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question: "Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?" The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound. Royal Baking Powder contains no alum nor phosphate. ROYAL BAKING POWDER CO. New York
